Cancellation/Changes/Return Policy

No cancellation charges prior to production. After production, only actual costs incurred that can not be recovered during a reasonable length of time (six months). Nevers Industries, Inc. will make every attempt to honor any reasonable change request provided that the request is received prior to start of production. Nevers Industries, Inc. reserves the right to increase our acknowledged price to make the requested changes.

Restock Policy

Merchandise may not be returned without the consent of Nevers and a Return Goods Authorization Form from Nevers' customer service department. If approved, the customer shall be responsible for a 25% restocking fee.

Symposia

Imagine a room filled with brilliant minds assembled therein for the purpose of achieving more. The conversations might be focused upon driving forces forward together, curing cancer, opening a new university or museum, reaching greater heights, or negotiating world peace. It might be as simple as developing the next generation of great minds and problem solvers – but it begins with a room filled with brilliant minds and a Symposia table.

Credit and Payment Terms

Nevers Industries Inc policy does not allow for automatic open account terms for new customers, customers whose account is not current, individuals or residential accounts. *New customers are required to make a deposit for the full value of the merchandise ordered.* A credit application will be sent to each new customer. Credit will be established upon review of the responses given by the customer's references and will appear on future order acknowledgements. New customers are encouraged to begin establishing a credit rating with Nevers Industries Inc prior to placing an order. Our customers are responsible to provide the necessary current and accurate information. *Upon establishment of an open account, terms are Net 30. 1 1/2% per month service charge will be added to all past due accounts. Accounts that are 90 days past due will be subject to collection proceedings without any additional notice. Orders will not be processed for past due accounts until the amount due, including any service charges, is paid in full.* Standard product orders exceeding \$50,000 net will require a down payment of 33%. Custom orders will require a down payment of 50% and will not be scheduled for production until the down payment is received. Balance is then due before shipment. *A bank letter of credit may be required for any order over \$50,000 net.*

Prices

Our prices are list, freight prepaid, F.O.B. Plymouth, Minnesota, and are subject to change without notice. Quoted prices must be accepted within 30 days or re-quoted for date and approval. Freight is prepaid and allowed for normal ground transportation within the 48 contiguous states, must ship to dock location. Air freight, will calls, and special delivery will be quoted and invoiced separately. Prices do not include installation, storage, or sales tax.

Packaging

Nevers Industries Inc pricing includes packing for North American shipment. Whenever possible, Nevers will blanket-wrap your order; otherwise, all products will be packaged. Only environmentally safe packing materials are used. Large furniture pieces will be packed with wood reinforcements for added protection. For special packaging, crating or overseas shipment, please contact our Customer Service Department.

Delivery

Nevers Industries Inc will select the method of shipment, carrier and routing. Carrier selection is solicited to provide the best service to each customer in their particular location. All shipments are sent prepaid, FOB Plymouth, Minnesota. *Nevers Industries Inc liability ends when the carrier issues a receipt to Nevers Industries Inc. This is an acknowledgement by the transportation company that the shipment has been received by the freight company in good condition and title of the goods and risk of loss transfers to the buyer. The order shall be considered complete. Prepaid freight does not change the F.O.B. status of the product and risks involved in the shipment. We reserve the right to make partial shipments.* Invoices relevant to the partial shipments are payable as they fall due.

Freight Terms

All orders under \$2,000 net are subject to a minimum order/ additional freight charge of \$200 net; Nevers Industries Inc also reserves the right to establish a freight and fuel surcharge fee to cover variable freight costs. This charge will be established at the time of order and acknowledgement date.

Lead Times

The lead time on an order begins when Nevers' Order Entry Department has verified the validity of the items ordered and has received at our manufacturing facility all COM materials supplied by others. All acknowledgments will contain current lead time information. If for some reason the buyer does not want it early, please list a Do Not Ship before date. We are not responsible for delays in scheduling or failure to make scheduled shipping date due to strikes, lockouts or other labor complications, war, riots, Acts of God, fires, accidents, restraints affecting shipment or credit, reduced supply or excessive cost of fuel or raw material, delays from suppliers, compliance with Government regulations, or other unforeseen contingencies. When delays in product delivery are caused by the purchaser, we reserve the right to draw up to 100% of the contract price and to charge to the purchaser any costs incurred by us due to such.

Order Acknowledgement

All orders are subject to final acceptance by Nevers Industries, Inc. Receipt of our acknowledgement indicates acceptance of your order subject to the terms and conditions set forth in Our Acknowledgement. If pricing on the purchase order is different than the acknowledged pricing, the acknowledgement will take precedent over the purchase order. Nevers Industries, Inc. attempts to clarify all orders. But in the event of any discrepancy, please notify Nevers Industries Inc immediately. Failure to notify Nevers of a discrepancy within five (5) days will constitute acceptance of the order as acknowledged. All orders are subject to credit approval at any time.

Change Orders

Nevers Industries, Inc. will make every attempt to honor any reasonable change request to standard product provided that the request is received prior to start of production. Change orders will be accepted only if the request is made in writing and received in time to make the change. Nevers Industries, Inc. reserves the right to increase our acknowledged price and ship date if necessary to make the requested changes.

Nevers Industries Inc will make every reasonable effort to stop production, scheduling shipments, etc., upon receipt of written notification of changes, cancellations, or deferments of delivery. Nevers will assess charges to the customer for change orders, cancellations, and delivery deferments as stipulated in the following:

Change Orders:

- Received prior to start of production will be charged \$200 net.
- Received after production has started involving design changes or reductions in quantity will not be accepted. The customer will receive the goods as ordered and be liable for the amount due.

Cancellations:

- Received prior to start of production will be assessed a \$500 net cancellation charge.
- Received after production has started will be assessed the total accumulated cost of the project plus a \$500 net cancellation charge.

Deferred Shipments

All merchandise will ship upon completion of production. If customer is unable to take delivery of merchandise when ready for shipment, Nevers Industries, Inc. may transfer the merchandise to storage. All cost for storage and freight will be at customer's expense. Transfer to storage will be considered delivery for all purposes including invoicing and payment. Customer will bear the risk of loss or damage during storage. Deferred shipment charges will be assessed from the completion date in accordance with Nevers policy for Storage by the Manufacturer.

Storage By The Manufacturer

No shipment can be postponed by the customer.

Nevers Industries Inc reserves the right to transfer products to storage and issue its invoice for the products at that time. Such transfer to storage shall be deemed delivery to the customer for all purposes. Long term storage over 30 days may be subject to surcharges.

Shipment Claims

Legal title of merchandise passes to the buyer upon acceptance by the carrier. The buyer must inspect all cartons on arrival for visible or concealed damage. In the event of visible freight damage, the buyer must make a notation on the freight bill; immediately notify the carrier for an inspection; and file a freight claim. *Do not sign the receipt until the visual inspection is complete at the time of delivery. If concealed damage is discovered*, the carrier must be notified within 15 days. Keep all packaging materials for inspection (do not destroy). The buyer has the sole obligation of seeking recourse against the carrier. Caution: When a clear receipt is obtained by a carrier, the carrier is no longer responsible for damages or shortages. Damaged freight cannot be refused by the consignee (buyer). Processing claims for damages and shortages are the responsibility of the buyer. At no time can claims be deducted from our invoices.

Returns

All Nevers Industries, Inc. products are made to order. Therefore, merchandise may not be returned without specific consent from Nevers Customer Service Department. Unauthorized returns will be refused by the shipping department.

Miscellaneous

All merchandise shown in our catalog is the property of Nevers Industries Inc. We reserve the sole right to manufacture and distribute it. All patterns, tools, and designs developed for the production of any product will remain the property of Nevers Industries Inc. All published dimensions are approximate and if the exact sizes are critical, we suggest that you request actual measurements. Price list data supersedes all other specifications, whether verbal or written, and may not be altered without the written consent of an officer of Nevers Industries Inc. Typing and clerical errors on any agreement, publication, correspondence, price list, or product literature pieces are subject to correction at any time without notice. Due to variations beyond our control, all wood and upholstery products are subject to slight variations in color, texture, and grain.

Specifications

Nevers Industries, Inc. reserves the right to change prices, specifications, fabrics, dimensions and finishes at any time without prior notice. This right to change also applies to discontinuing models at any time, catalog contents and price list contents.

Warranty

Nevers Industries, Inc. warrants its products to be free from defects in material and workmanship under normal and reasonable use and service for a period of ten years from the date of shipment to customer. Proprietary supporting products, which are manufactured by others and sold by Nevers Industries, Inc. carry the original manufacturer's warranty. The decision of defects in workmanship or materials or the decision of misuse or abuse remains with

Nevers Industries, Inc. No warranties other than those contained herein will be implied and Nevers Industries, Inc. does not authorize any person to create any warranties other than those contained herein.

Wood Veneers

Nevers® products are manufactured primarily of Plain Sliced Mahogany, Black Walnut, White Oak, Cherry and Maple. Veneer panels are laid up with plain sliced faces and are balanced on back to minimize warping and balance stresses. Quarter sawn, speciality patterns and other woods may be specified. Please contact Customer Service for price and availability.

Note: COLOR VARIATION WILL OCCUR IN THE GRAIN OF ALL WOOD SPECIES.

This is an inherent characteristic caused by the annual growth rings found in all hardwoods and the manner in which the boards and veneers are cut across these growth rings. In some species, this color variation is very subtle. In other species this color variation is obvious and at times radical. The process of finishing hardwood veneers determines whether these variations are enhanced or subdued. Natural finishes will show color variations in the grain and enhance the beauty of the wood to its fullest extent. Other stains and finishes tend to blend in these variations to some extent dependent upon the depth of color and the particular method of application.

Standard Wood Finishes

Nevers' standard finish is a multi-step process involving dyes, stain, sealer, toner and lacquer. For added protection and durability, the final top coat on all table tops is catalyzed lacquer. All of the finishes have been formulated for maximum clarity to enhance the natural characteristics of each particular wood species. Standard finish is open pore. Semi-filled and filled finishes require an upcharge and may extend the lead time. Please contact Customer Service for price and delivery date.

Custom Wood Stains and Finishes

Nevers offers the capability of matching your custom stains or finishes. Virtually any wood finish or color sample can be matched to your specifications. A finish sample or stain sample is required from the customer before the process of matching approval can begin. For custom stain match – any order under \$5000 list there is a \$270 net upcharge.

Wood Surface Cleaning

Wood furniture should be cleaned with a damp, soft cloth, wiping in the direction of the wood grain. Wood surface should then be dried with a dry, soft cloth. Monthly, wood surfaces should be cleaned with a soft cloth using a quality wood cleaner, following cleaner's directions. Ammonia, silicon products or any type of oil should be avoided.

Standard Laminates

Laminate panels are laid up with Wilsonart® standard grade high pressure laminate with an equalized back to minimize warping and to balance stresses. Any Wilsonart® laminates ending with finish codes (-60) or (-38) are standard.

Custom Laminates

Any commercially available laminate may be specified. Most custom laminate orders may extend the standard delivery date. Non standard laminate is subject to a minimum upcharge of \$270 net per order per color. Call Customer Service to confirm pricing.

Laminate Surface Cleaning

Laminate furniture should be cleaned using a damp cloth or sponge and a mild soap or detergent. Difficult stains such as coffee or tea can be removed using a mild household cleaner, following cleaner's directions.

Standard Color Coats

Color Coat is available to match all standard Wilsonart® solid colored laminates

Standard Caesarstone

Caesarstone is virtually maintenance free. Caesarstone is harder and more scratch resistant than either granite or marble, and its high-quality polymer binders make it non-porous and highly resistant to stains.

Nevers strongly recommends having a skilled stone installer perform the installation. Caesarstone should be adequately secured with 100% clear silicone adhesive only. Cement adjacent pieces together with high quality polyester or epoxy stone adhesives. Follow stone adhesive manufacturer's instructions. Stone adhesive should be tinted to match or complement the Caesarstone color. Fill joints and clamp or brace Caesarstone in position until stone adhesive sets.

Caesarstone Surface Cleaning

In most cases, soap and water or a mild detergent is all that is required to maintain its luster. While Caesarstone does not require sealants or waxes to maintain its luster, occasional cleansing with Method® Daily Polish Spray or Method® Daily Stone Surface Wipes will keep the quartz surface looking its best.

Standard Glass

Nevers' standard glass table tops use low iron, fully tempered glass. Fully tempered glass is generally four times stronger than annealed glass and twice as strong as heat-strengthened glass of the same thickness, size and type. Low iron glass is made to be crystal clear and virtually tint-free.

Glass Surface Cleaning

Clean glass surfaces with mild soapy water, using a sponge or soft cloth. Rinse thoroughly by lightly spraying with clean water and repeat as needed. Wipe dry with a soft cloth. Use non-ammonia based cleaner designed for glass surface cleaning and a soft cloth, applying moderate pressure, in a circular motion, on the areas needing cleaning.

Top Upgrade Options

Starburst Pattern (Y/SBE)

A starburst sketch face panel or top is made up of 6 or more leaves of veneer or spliced faces of veneer, matched and trimmed into "pie-shape" pieces. Each piece or section is cut at the appropriate angle so the wood grain radiates from a center point. Veneer leaves are book or slip matched, depending on species and assembled to form a full round "flower type pattern", resembling a starburst.

Fan Shaped Pattern (Y/FNE)

Fan shape veneers are utilized on curved or arc shaped tops. Joints are intentionally cut to follow the radiant of the curve, thus forming a "pie shaped" individual veneer leaf. The veneer grain and splice lines radiate from an imaginary center point. This method of wood veneering forms what could be described as a "fan shape" since the outside perimeter of the curve is larger than the inside perimeter.

Ebony Inlay (Y/INL)

1/8" x 1/8" pieces of solid ebony are inset into grooves that are hand routed into the table top. The ebony is sanded down and finished flush with the veneer face. The ebony inlay is four inches from the outer edge creating a border or framing effect.

Metal Inlay (Y/MNL)

1/4" x 1/4" pieces of solid aluminum metal are inset into grooves that are hand routed into the table top. The metal inlay is finished flush with the veneer face. The metal inlay is four inches from the outer edge creating a border or framing effect. Finishes available are natural aluminum or powder coated matte black.

Laminate Inset with Solid Wood Edge (Y/LIN)

Any edge profile is available with an inset laminate surface. The solid wood edging is finished flush with the laminate. When a wood grained laminate is selected, a matching wood species is applied and stained to match the laminate.

Two Tone Stain (Y/TTS)

A single species table top is divided onto 2 separate sections that are finished with contrasting or complimenting stain colors. The last finishing step of catalyzed lacquer is applied to provide a consistent sheen level on the entire table top. The two tone stain option is only available with an ebony inlay or a metal inlay to

Base Upgrade Options

Plinth Base (Y/BX6)

A 1-1/8" high plinth base is inset 1/4" around the entire perimeter of the base. The plinth is available in any colorcoat finish.

Traditional Base Molding (Y/BX8)

4" high x 3/4" thick pieces of solid wood traditional molding is applied to the bottom of the base giving it a formal appearance.

Reveal (Y/BX10)

1/8" x 1/8" section of the base is routed out and finished black, creating a decorative void. The reveal is located 4" above the bottom of the base.

Metal Inlay (Y/BX3)

1/4" x 1/4" pieces of solid aluminum metal are inset into grooves that are hand routed into the base. Metal inlay is located 4" above the bottom of the base.

Accent Strip (Y/BX11)

1" pieces of metal laminate or colored laminate is inset into the base creating an accent strip. The strip is only routed as deep as the material so the strip is finished out flush with the veneer. The accent strip is located 6" up from the bottom of the base.

POWER, VOICE AND DATA

The Infinity Base is specifically designed to allow all of the technology to be installed prior to the table top being attached. The interior of the Infinity Base offers multiple heights for wire management as well as continuous wire management running the full perimeter of the table. Nevers offers a wide variety of PVD options and the flexibility to incorporate your AV provider's microphones and technology.

THE PASS THRU DOOR

The pass thru door allows quick access to the interior of the table, only featured on closed shape tapes (e.g. Round, Rectangle and Oval).

THE TABLE TOP

Symposia Presentation tables are built using 1-3/16" thick core and a variety of edge profiles. Tables are available in a variety of shapes, sizes, materials and finishes. Veneer tables are always sequenced and book matched to maximize the beauty of natural wood grain. Our finishes are hand applied and hand sanded.

THE ACCESS DOOR

Every Infinity Base comes standard with a hinged access doors adjacent to every power unit which provides easy access to the hollow interior of the base.

THE INFINITY BASE

The shape of the Infinity Base echoes the shape of the table top for elegant continuity of design. The base's engineering allows a generous 20" of clear leg room on 36" deep tops and 18" on 30" deep tops. The base is full height from the underside of the table to the levelers at the finished floor and is finished on both sides, which graciously performs as a modesty panel for everyone seated at the table.

Planning Considerations

1. Select a table shape.

Things to consider:

- How is the room used? Some suggestions: open forums = Round and oval shapes, presentations = U, V, and horseshoe shapes, council meetings = wide U shape.
- What is the shape of the room? The table could compliment or contrast the room shape.

2. Select a table size. (length and width)

Things to consider:

- How many people does the table need to sit? Every table has the recommended functional seating predetermined. The functional seating number is based on 30" spacing per person.
- How large is the room? A good thing to keep in mind is the ADA guideline 4.2.1 requiring a minimum of 36" continuous clear space for clear passage.

3. Select the edge profile and any table top or base upgrade options.

See pages 8 and 9 for upgrade options.

4. Select the wood species and finish.

Things to consider:

- What type of graining is desired? Cherry and oak naturally have cathedrals with dramatic graining. Maple and mahogany typically have tighter graining.
- What type of natural coloring is desired? Yellow and tan tones can be found in maple and ash, brownish-yellow tones can be found in oak and cherry, mahogany tones are reddish-brown and walnut tones are brown.
- Need a custom stain to match? Nevers offers the capability of matching your custom stains or finishes. For any order over \$5000 list, there is no additional charge.

5. Select power/data/voice. (if needed)

See pages 36-39 for power offerings.

Presentation Tables

Symposia Presentation tables are inspired by the ancient Greek dialogues on philosophical and political issues. The sumptuous lines and elegant curves foster conversations by turning meetings into a collective gathering at which there is free interchange of ideas and intellect. The tables are offered in wood, glass, metal, laminate and stone materials for an unlimited collection of design versatility.

General Specifications:

1. Table tops are 1-1/4" thick. Edges are NII construction joinery.
2. Access doors come standard on all Symposia Infinity bases adjacent to every power unit ordered.
3. Table heights range from 29" to 29-1/2" prior to adding levelers, depending upon table top material and thickness.
4. Laminates with simulated wood grain will run the length of the table and may or may not match up at seams.
5. Edge profiles come standard on outer edge of table; inner edges come standard as profile "AE" Eased Lineal.
6. Connector table comes standard with 5" panel bases with non-locking concealed casters.

Symposia

Symposia Presentation Table Power, Voice and Data

Symposia Presentation table technology is always the best solution because it is YOUR solution. It is as easy as determining the power, voice, data and AV requirements and then selecting the power components to fit those requirements. The power unit placement on Symposia Presentation tables is pre-determined, taking the guess work out of PVD. The power unit placement is preconfigured to comfortably accommodate two people per power unit. Typical spacing from one unit to another is on-center every 60 inches. Simply contact customer service to specify any custom placements. The ability to mix and match power units with grommets and the locations provides limitless possibilities.

The Infinity Base is specifically designed to allow all of the power and technology to be installed prior to the table top being attached. The table top is placed on the Infinity base system after the technology integration is complete. This prevents damage to the table top attributable to third party contractors.

Every Infinity Base comes standard with a hinged access door which provides easy access during installation and for future maintenance. When power is ordered, the Infinity base will automatically be configured with a hinged access door adjacent to every power unit.

The interior of the Infinity Base offers multiple heights for wire management as well as a spacious hollow interior for CPU storage, AV amplifiers/equipment and unimpeded core drill access. Cutouts in the bottom of the base are located directly below the power units for easy floor core access.

Nevers Meeting Link™ (Available on Wood and Laminate tops only)

POWER, VOICE AND DATA

The Infinity Base is specifically designed to allow all of the power and technology to be installed prior to the table top being attached. The interior of the Infinity Base offers multiple heights for wire management as well as a spacious hollow interior for CPU storage, AV Amplifiers/equipment and unimpeded core drill access. Nevers offers a wide variety of PVD options and the flexibility to incorporate your AV provider's microphones and technology.

THE TABLE TOP

Symposia conference tables are built using 1-1/2" thick core and a variety of edge profiles. Tables are available in a variety of shapes, sizes, materials and finishes. Veneer tables are always sequenced and book matched to maximize the beauty of natural wood grain. Our finishes are hand applied and hand sanded.

THE ACCESS DOOR

Every Infinity Base comes standard with a hinged access door which provides easy access to the hollow interior of the base. When power is ordered, the Infinity base will automatically be configured with an additional access door adjacent to every power unit.

THE INFINITY BASE

The shape of the Infinity Base echoes the shape of the table top for elegant continuity of design. The base's engineering allows a generous 20" of clear leg room at each end and 18" along the sides while supporting the table without a single projecting base. The base is full height from the underside of the table to the levelers at the finished floor, which graciously performs as a modesty panel for everyone seated at the table.

Planning Considerations

1. Select a Table Shape.

Things to Consider:

- How is the room used? Some suggestions: staff meetings = boat shape, open discussions/ brain storming = round shape, presentations/video conferencing = viewpoint shape.
- What is the shape of the room? The table could compliment or contrast the room shape.
- What style is the room? A rectangle shape fits the linear lines of modern styling, while a racetrack shape fits the soft lines of traditional styling.

2. Select a Table Size. (length and width)

Things to Consider:

- How many people does the table need to sit? Every table has the recommended functional seating predetermined. The functional seating number is based on 30" spacing per person.
- How large is the room? A good thing to keep in mind is the ADA guideline 4.2.1 requiring a minimum of 36" continuous clear space for clear passage.

3. Select the edge profile and any table top or base upgrade options.

See pages 8 and 9 for upgrade options.

4. Select the Wood Species and Finish.

Things to Consider:

- What type of graining is desired? Cherry and oak naturally have cathedrals with dramatic graining. Maple and mahogany typically have tighter graining.
- What type of natural coloring is desired? Yellow and tan tones can be found in maple and ash, brownish-yellow tones can be found in oak and cherry, mahogany tones are reddish-brown and walnut tones are brown.
- Need a custom stain to match? Nevers offers the capability of matching your custom stains or finishes. For any order over \$5000 list, there is no additional charge.

5. Select Power/Data/Voice. (if needed)

See pages 56-61 for power offerings.

Conference Tables

Symposia Conference tables are exquisitely beautiful and agile. The tables are offered in sinuous and angular geometric options, with wood, glass, metal, laminate and stone materials available for an unlimited collection of design versatility. The Infinity bases are specifically designed to provide luxurious leg room, multi level wire management and elegant full length modesty panel.

Symposia

Symposia Conference Table Power, Voice & Data

Symposia Conference table technology is always the best solution because it is YOUR solution. It is as easy as determining the power, voice, data and AV requirements, selecting the power components to fit those requirements and determining the placement of the components. The ability to mix and match power units with grommets provides limitless possibilities.

The Infinity Base is specifically designed to allow all of the power and technology to be installed prior to the table top being attached. The table top is placed on the Infinity base system after the technology integration is complete. This prevents damage to the table top attributable to third party contractors.

Every Infinity Base comes standard with a hinged access door which provides easy access during installation and for future maintenance. When power is ordered, the Infinity base will automatically be configured with a hinged access door adjacent to every power unit.

The interior of the Infinity Base offers multiple heights for wire management as well as a spacious hollow interior for CPU storage, AV amplifiers/equipment and unimpeded core drill access.

Power Table - Conference Table, Voice & Data

After the specific power, data, voice and AV requirements have been defined and the power components specified, the placement of each component needs to be determined. The chart below shows general placement. When specifying different cutout types, please indicate the location of each unit. For example, to specify (2) R/PV2/01 using placement YPL-5:

[illegible]

* R/PV1 and R/PV8 Not Available in This Configuration

The rectangle table top depicted in the above drawings is used for reference only as all other shapes in the collection fit within this shape. Exact placement and dimensions are determinate upon the table top size and power components specified.
